Return to Prosperity. There is but one view in financial circles on the effect of the war if it conlines It moderated. tinues. It undoubtedly will have a stimulating effect upon business and will set 300 300 a great deal of loose money in circulation. There will be boom times, so to 8.400 speak, which should find their way into all channels of trade, including the un-

healthy prosperity such as would arise from good crops, excellent money condi-tions and an absence of destructive leg-islation. A reaction, of course, is in-evitable, but that is too far in the future

revitable, but that is too far in the future for speculation.

The main point is that the country appears on the eve of a return to the evidences of prosperity regretable as it is that such a condition should come through war.

Mexico, of course, cannot obtain a foreign loan and will be unable to carry on any orderly campaign. After a few months the war will resolve itself into police duty which on the whole will fail little less expensive to this country.

Compilications with other nations is the \$2.25 a west app, and \$2.48 a year agn. Complications with other nations is the 53.25 a week ago, and 23.46 a year ago, next important factor. The low element in Japan, for instance, would have forced a war with the United States any time in the last five years had it not been for the statesmanship of the ministry and cells its control over the Imperial Diet. The latter, of course, have been restrained by Ame a national debt of one billion and a quar- Ame dollars with little left to tax other

Virginia Railway and Power. Virginia Railway and Power Company is continuing to show gains in its gross and net carnings and also in the surplus applicable to dividends. For the nine months ended March 31, 1914, carnings applicable to dividends were at the rate of 5.57 per cent a year on the \$11,90,-300 of common stock, after providing for dividends on the preferred stock. Semi-annual dividends of 1½ per cent are being paid in the common stock and the com-pany is earning its preferred dividends about two and three-quarter times.

It is reported in foreign exchange Chic circles that notwithstanding the current high rates for exchange, particularly the rate for frame checks, which are within 1-54 of the gold export point, no shipment of the metal will be made unless it is agreeable to the Treasury Department officials. It is even rumored that an in-termational house has sounded the government on this matter and received an answer disapproving of any ship-ments pending the present critical citua-

The North Carolina Corporation Commission has made an order requiring the Southern Express Company to put into effect. June 5. a new system of rates applicable to intrastate express business, based on the interstate rates now in force.

The new North Carolina rates, however, are modified in some respects to avoid increasing the North Carolina rates on various commodities to bring them up to the level of interstate rates.

Commission appointed to redeem excessfare coupons on fares paid to Chesapeake & Ohlo in West Virginia while two-cent fare law was in courts, considered 23,000 claims and paid out \$250,000.

Marine underwriters are now taking war rinks on cargoes to Mexico. Rates were quoted Tuesday on goods sent to towns near the coast, conditional upon 'Instant acceptance.' For the last few days the shippers have been waiting the turn of developments in the Mexican situation. Some risks were taken on Tuesday for a premium of 11-2 per cent. or \$1.50 for each \$100.009 of insurance. Merchants have done very little business with the interior towns of Mexico during the last few months. Consequently, the leading underwriters say they have had practically no calls for such risks. But Tuesday many policies were taken out on cargoes sent to Mexican coast cities. The insurance companies will not assume risks against the 11.66 Mexican coast cities. The insurance com11.56 panies will not assume risks against the
10.55 loss of market, but only against the loss
11.75 of goods.
11.71 At a meeting of the directors of the

At a meeting of the directors of the Missouri, Kansas and Texas Railway Company yesterday, it was decided to pass the dividend on the preferred stock. The last disbursement on the issue was 3 per cent on November 10 last.

The directors issued the following: "The excessive drouth of last July and August in Kansas. Oklahoma and Texas, has exerted a very adverse effect, upon earnings and besides this, the exceedingly severe floods in Texas in November and December, which surpassed the ost of operation and expenditures for

CITY FATHERS OPPOSE BILL.

Gallinger Condemnation Measure
Declared Unnecessary in Report.

"A backward step," Such is the characterization which the Commissioners
gave the Gallinger bill to prevent them
from condemning land for streets until
after an appropriation by Congress in
their report to the District committee
on the bill.

The Commissioners say there are additional reasons why, in certain cases,
they should be allowed to condemn before an appropriation is made, among
them being that it is sometimes advantageous for the District to acquire before land values enhance.

Those Present Weitenne, Miss
Whitcomb.

### Is This the Kind of Bank You Want to Bank With?

The Munsey Trust Company has a capital of \$2,000,000. It started right, with its capital fully paid in before it opened its doors for business. Capital enough to make it as solid as the "Rock of Gibraltar."

-It pays 2% interest on checking accounts.

-It pays 3% interest on ordinary savings accounts.

#### -It pays 4% interest on special savings accounts.

Interest compounded mouthly (twelve times a year) on the 3 per cent accounts and four times a year on the 3 per cent accounts, and twice a year on the 4 per cent accounts, and twice a year on the 4 per cent accounts, and interest so figured that the depositor gets a "square deal." There are no rules, no penalties, no subterfuges with us that whittle down the rate of interest; and your money draws interest every day it is in The Munsey Trust Company, however long or short the time, and every business day in the year is deposit day.

The Munsey Trust Company is a serious, substantial bank, conducted on sound business lines. Its methods are clean, clear-cut, and straightforward.

clear-cut, and straightforward. It has no favorites, it treats all men the same-treats the big man no better than the little man, and treats all slike, with well considered courtesy. If this is the kind of bank that appeals to you, we should be glad to have you open an account with us. Measured from every angle—the interest we pay, and the way we figure interest, and the strength and substantiality of The Munsey Trust Company—is there any other bank anywhere where you can do as well? Think this over—it is very much worth your while. clear-cut, and straightforward
